We have created new W-2/WP monitoring reports:

The following report will run weekly/monthly, and will be located in the "Work Programs - WP Individual" folder in WEBI.

1.   WP Report #101 - WP Individuals With Employability Plans Report -- This report will take the place of EOS Form number C756&7and C797-- Reports RP748A&B and RP711A -- they show the current status of the employability plans for current WP individuals.

The following report will run weekly/monthly and will be located in the "Work Programs - WP Transaction" folder in WEBI.

2.   WP Report #103 - Auto Disenrolled Individuals Report -- This report lists each PIN that was closed during the monthly auto disenrollment process. (Discussed in Operational Memo #10-22)

The following report will run weekly/monthly and will be located in the "Work Programs - WP Placements" folder in WEBI.

3.   WP Report #102 -- CMF Placements Open for More than 12 Months -- This report has been developed to assist agencies in identifying those W-2 cases that have been placed in Case Management Follow-Up (CMF) for greater than 12 months. (Discussed in Operational Memo #10-22)

The following report will run monthly and will be located in the "PS2010-11 Balance of State -- Required Standards" folder in WEBI. (Each type of agency will have their own summary report placed in their required standards folder.)

4.   Performance Standards Summary Report -- This report takes the place of the Green Flag Report and has been designed to be interactive so you will not have separate static reports. This report will give you a snapshot of your required standards and show how you are doing at a particular point in time. This report will not show the exceptions that have been requested.

Also the Formal/Informal Assessment Due reports will be moving soon to the W-2 Monitoring folder in WEBI.
